PARIVAR VIDHYALAYA

Ajwa Road, Vadodara - 390019

H.SC (Commerce) 2019

S.SC 2017

Project

❖ E-commerce In Java Enterprise Edition

E commerce In Form of Web Application which includes all the basic E Commerce Transaction and Functionalities, One Additional Feature is added like Discount Counting on Each Product Purchase And Trading between B2C and C2C. I Had Also Created Android Mobile Application for the Same.

❖ MedHost

MedHost is the Web Application (ASP .NET) Which is going to used by Hospitals, In This Application There are 3 Roles: Admin, Staff and Patient. Admin Manages Staff Schedule, Staff can see Their Schedule, Admin can see Staff and Patient Status, Staff Members can Interact with System According to Their Role. In Short, I Had Tried Something New Which Consist of 4 Main Modules which are: Hospital Management System, Staff Schedule System, Leave Management System and Patient Recovery System.

Key Features: E-Mail Function, Google Map API, Graphical Data Representation, Reports Generation Graphically.

Achievements

- Board of Studies (BOS) Member of CMPICA Institute of MCA Department.
